For Your Life in Wooden Style
by Martin Hausner

Dear ladies & gentlemen,

Let me introduce our company very shortly.

*GASTRO INTERIEUR, s.r.o. is the **Czech producer of custom wooden furniture and interiors.***

*We are active on the market since 1992. Starting in 2016 the company is presented under the brand “**by MH**”, based on the name of the company founder & owner **Martin Hausner**. He is largely involved in design and manufacturing process, starting with drawings, entering into production, personal control from the real beginning to the end of the contract, his supervision during the expedition and then, of course, in the place of realization.*

*Our next advantage is **own factory** near Plzeň (the West Bohemia), so we are not only a merchant but we are directly the manufacturer of the furniture we supply. We work only with high quality materials: from solid wood, veneer, waxes and oils, to furniture fittings and accessories.*

Even you can see our references on our website www.by-mh.com or on www.gutlebbin.de (the apartment house by the Baltic Sea with interiors completely equipped by us), next page is a brief presentation of furniture we can produce.
